Abstract—Can not be done yet

Index Terms—genetic algorithms, GA, adversarial attack, robustness

I. INTRODUCTION

Can be written now, mention what each section is about in this section.

II. BACKGROUND?

Maybe skip this section

III. TALK ABOUT THE GA

I don't know what to call this section

A. Mutation

But it can be written now

B. Crossover

Talk about the different parts

IV. EXPERIMENT? TUNING OF HYPERPARAMETERS?

Can maybe be done after the meeting. Here we also mention what model and dataset we are using for the tests.

V. RESULTS

Graphs and shit. Cannot be done yet

VI. THREATS TO VALIDITY

Can probably skip this

VII. DISCUSSION

Cannot be done yet
